Office Action Summary	Application No. 10/510,485	Applicant(s) EHWALD ET AL.	
	Examiner Timothy L. Maust	Art Unit 3751	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Claims 24-28 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 12/26/07.

Applicant's election with traverse of Group I, Claims 1-21 in the reply filed on 12/26/07 is acknowledged.

The traversal is on the ground(s) that claim 24 was filed exactly as suggested by the office under "allowable subject matter". This is not found persuasive because claim 24 is not defined as having a cooling apparatus integrated in the sample collector and the Applicant further added a commensurate independent method claim 27, which is distinct from that which is claimed in independent claims 1 and 15.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 29 is rejected under 35 U.S.C. 103(a) as being unpatentable over Ginsburg in view of McDowell et al.

The Ginsburg reference discloses a “sample collector” (see Figures) comprising a “collection container” 19, a “supply line” (3, 5, 7) and an “integrated apparatus” 33 (see column 2, lines 13-42), but doesn’t disclose the gas permeable liquid barrier. However, the McDowell et al. reference discloses another sample collector having a gas permeable liquid barrier (13, 31) to filter the supply material. Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the Ginsburg device to have a gas permeable liquid barrier in view of the teachings of the McDowell et al. reference in order to filter the supply material before being collected.

Allowable Subject Matter

Claims 1-21 are allowed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

Art Unit: 3751

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
